

MIOsha RESIDENTIAL INSPECTION CHECKLIST

Site Location:			
Project Name:		Site Foreman:	
Date of Inspection:		Work Activity:	
FALL PROTECTION	Yes	No	N/A
Is fall protection in place or used when working at heights of 6' or more? (i.e., Guardrails, Midrails, Safety Nets, Personal Fall Arrest System) *A Personal Fall Arrest System is composed of a safety harness, lanyard, and appropriate anchor point.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is a written Fall Protection Plan in use? Is it site-specific? Does it document why it is infeasible or creates a greater hazard to use conventional fall protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are employees trained how to recognize fall hazards; install fall protection, (i.e., guardrails); and properly use a Personal Fall Arrest System? Is this training documented?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are holes and other openings, such as stairway openings, properly covered? (i.e., covers are securely fastened, support 2x the intended load, marked "hole" or "cover")	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
SCAFFOLDING	Yes	No	N/A
Are guardrails in place on scaffold platforms at heights of 10' or more?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are baseplates and adequate mudsills in place?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is the scaffold designed by a competent person to meet the design requirements for supporting 4 times the maximum intended load?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Has the scaffold been inspected for defective and missing components? (i.e., damaged planking, bent bracing, not fully planked)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Does the Rough Terrain Fork Lift Truck Scaffold meet the design requirements? (i.e., toeboard, guardrail, anchorage point to attach lanyard, platform secured to the forks)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Is a Personal Fall Arrest System being used while working on a Ladder Jack Scaffold?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
LADDERS	Yes	No	N/A
Do extension ladders extend 3' above the landing area? Are they tied off or secured?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are all ladders Type 1 or Type 1A? (Type II or Type III ladders are not allowed.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are ladders set up on solid footing and free of trip hazards at the base and top?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are step ladders fully opened with the spreaders locked?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are ladders in good condition with no defects/damage? (i.e., broken rungs or split side rails)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are ladders, ramps or steps provided at elevation changes of 19" or more?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
TOOLS	Yes	No	N/A
Are guards in place on table saws, portable electric saws, grinders, compressors, etc.?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Are damaged tools tagged or removed from service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

PLEASE SEE OTHER SIDE

ELECTRICAL	Yes	No	N/A
Are all electrical tools protected by a functioning GFCI receptacle, GFCI circuit or GFCI adapter?			
Are extension cords and trailing cords in good condition and free from damage, wear, missing ground prongs, etc.?			
Are energized electrical parts protected from accidental contact? (i.e., electrical panel covers are in place, receptacles are secured an approved junction box, temporary wiring is secured at ceiling level, ends of wires are capped or taped)			
Are power lines clearances being maintained at a minimum of 10' from tools and equipment?			
PPE			
Are hard hats worn where risk of being struck by falling/flying objects or from contacting an object?			
Are safety glasses worn during cutting/sawing/nailing or other operations having a risk of flying particles or objects? *Both a hard hat <u>AND</u> safety glasses are required when operating a nail gun or when working in the vicinity of a nail gun.			
Is footwear adequate for site conditions and work activities? (i.e., safety boots)			
SITE CONDITIONS			
Is there safe access and egress for employees to access the site and structure? Are ground conditions adequate to support equipment? (i.e., cranes and aerial lifts)			
Is the excavation around the foundation properly sloped or shored to prevent collapse?			
Is housekeeping being maintained for the site?			
Are toilets and drinking water available for employees?			
ADMINISTRATIVE			
Has an Accident Prevention Program been developed, maintained, and coordinated with employees? Is it available at the work site?			
Is there an employee trained in basic first aid and a first aid kit available at the work site?			
Are emergency procedures in place in the event of an incident?			
 <div style="border: 1px solid black; padding: 10px; margin-left: 20px;"> <p>Disclaimer: This list is meant to be used as a tool to assist employers with the inspection of their worksites to identify potential hazards that may be present. This checklist will not identify all hazards or items present at your worksite and additional inspection checklists, tools, or aids will be necessary to properly inspect your site. Remember that it is an employer's obligation to provide to their employees employment and a place of employment that is free from recognized hazards which can cause death or serious physical harm.</p> </div>
