

ARE YOU IN COMPLIANCE WITH OSHA STANDARDS?—MAKE TIME NOW FOR FIRST AID TRAINING!

Did you know that according to the general Rules of Construction Safety and Standards Section 132 that before beginning a project, provision shall be made for prompt medical attention in case of a serious injury.

A person who has a valid certificate in first aid training shall be present at the worksite to render first aid. Also, where a remote location or single employee worksite exists an employer shall provide a written plan that includes alternate methods of assuring treatment.

As well, an employer shall assure that there are first aid supplies at each jobsite and that the supplies are readily available.

Please join us along with Randy The CPR Guy EMS Safety Instructor for an OSHA compliant First Aid and Adult CPR Training.

Training includes: The latest ECC guidelines and current material along with a NEW 2 year certification for CPR & First Aid; all materials included.

Be Ready to Save A Life. First Aid Training & Emergency Preparedness.
